

Greenhills Residents Recycled 108 Tons in 2009!

Congratulations Greenhills residents! In 2009, you recycled 108 tons of metal, glass, plastic, and paper. Greenhills recycled 13 more tons in 2009 than in 2008! Residents saved resources, conserved energy, and reduced pollution by recycling.

The recycling efforts in Greenhills:

- Conserved enough energy to power every home in Greenhills for 4 days.
- Reduced more greenhouse gas pollution than if every household in Greenhills did not drive a car for 16 days.
- Saved 999 trees from being harvested.

Recycling reduces pollution so the air we breathe is cleaner, conserves natural resources so we will have them to use in the future, and decreases the energy needed to make new products. Recycling also boosts our local economy by creating 169,000 jobs and \$6 billion in annual wages just in the State of Ohio.

On average, each household in Greenhills recycled 131 pounds in 2009. That's 5.89% of all the waste you generate. If you would like to see even more material recycled in 2010, check out the list below to make sure you include all these materials in your recycling bin. Don't have a bin? Stop by the Greenhills Municipal Office to pick up your bin today!

Good Work, Greenhills, your recycling efforts made a big difference!
